

DoorBird
Technology meets Design.

DOORBIRD GIGABIT POE INJECTOR A1091

Designed,
developed and
made in Germany

THE FEATURES

- Gigabit transmission speed
- Automatic determination of the required power supply
- Plug-and-play, no configuration required
- Simple and fast installation
- High-quality metal enclosure, suitable for mounting on walls, ceilings or in control cabinets

The DoorBird A1091 PoE Injector is a compact and robust Gigabit PoE injector, compatible with the PoE IEEE 802.3af standard. Its high-quality metal enclosure has been designed for mounting on walls, ceilings or in control cabinets. The PoE Injector can be used wherever PoE-compatible network devices are supplied with power via network cable. The PoE injector is supported by all PoE-compatible DoorBird network devices, such as the DoorBird IP video door stations, the DoorBird door chime and the DoorBird 2 wired Ethernet PoE converter.

GENERAL

Dimensions	80 x 76 x 25 mm (L x W x H) 1.15 x 3 x 0.98 in (L x W x H)
Power supply	15 V DC, 1 A
Operating conditions	-25 to 55°C / -13 to 131°F
Speed	10/100/1000 M (Gigabit)
Connectors	2 x 10/100/1000M RJ45 1 x DC 5.5 mm socket
PoE	IEEE 802.3 af (mode A), IEEE 802.3 at (Mode-A), 15.4 watt
Data line pair	1/2 (+), 3/6 (-)
LED	PoE status
Range	80 metres / 262 feet via Cat.5/Cat.6/ Cat.7 network cable
Scope of delivery	1 x PoE injector 1 x DIN-Rail adapter 1 x Network Cable 1 x Power supply unit (mains adaptor) with four country-specific adaptors (110 - 240 V AC to 15 V DC) 1 x Drilling template 1x Small parts
Approvals	CE, FCC, UL, RoHS, IP50
Weather-proof	No
Weight	110 g
EAN	4260423860384
