

A simple solution for a smarter office

Works with

Subscription plans

Joan 6

Simple. Flexible. Frictionless.

Joan helps you reserve and manage your conference rooms and desks. It prevents double bookings, confusion, and meeting interruptions. Place Joan next to a room or on a desk to book them on the spot. Get a better insight into your space usage with weekly analytics reports. Make Joan 6 your first step towards a more productive workplace.

Joan's features are not only tied to the size of the device, but also to the subscription plan you choose.

- Our Basic plan offers Joan's essential features.
- To step up your office experience, choose our Standard plan. Enable a pleasant office environment where productive people meet and work better.
- For the most holistic office management, the Premium plan is the right choice for you.

Every subscription plan enables calendar integration. You can also book meetings on the go with our Joan app.

Free access to our Premium plan for 30 days

With the first purchase of any Joan device, you will receive a free Premium plan access for the first 30 days. After that, we'll help you find the plan that best suits all your office managing needs.

One device. Two functionalities.

Real-time booking

Hot-desking

Functionality
Real-time booking

See if a room is booked or free, check when is the next meeting, or even book a time slot on the spot. Available only on Joan 6 with any subscription plan.

“Joan changed our meeting room planning by not changing it. Our aim was to find digital signage for our meeting rooms that would not require our employees to log on to another web interface.”

—**Olaf Dubbert**, QSS Manager at Lyreco Deutschland GmbH.

“Joan is an excellent solution for any company that’s looking for transparent and effective assistance in organizing meetings.”

—**Maja Koprivec Perjet**, business secretary at GEN-I

“Joan devices just work! I haven’t seen a single issue in the location where I reside. We haven’t had to support them, and people adapted to using them very quickly. We have more insight into room utilization due to the backend report which is nice as well.”

—**Jamie McFarling**, Systems and Cloud Administrator at Bartlett & West
