

### Spare Parts and Accessories

Description	3M art no
HY68 SV Hygiene Kit	XH001659461
FL6CE Cable 3,5 mm to 3,5 mm, stereo	11003066724
FL6H Cable J22 to 3,5 mm, mono	XH001652078
FL6M Cable J22 to 2,5 mm, mono	XH001652094
TAMT06 Cable J22 to 2,5/3,5mm straight with PTT/microphone	XH001662747
TAMT06V Cable J22 to 2,5/3,5mm angled with PTT/microphone.	11003064257
MT661-D Boom microphone/PTT J22 to 2,5/3,5mm angled	XH001676416
MT661-F Boom microphone/PTT J22 to 2,5/3,5mm straight	XH001676473
MT53N-11-A44 Boom Microphone	

### Specification

<b>Battery Type:</b>	2 x AAA 1,2-1,5V (rechargeable Ni-Mh batteries included)
<b>Operating time:</b>	Surround + Bluetooth (active) >11h Surround only + Bluetooth Off >100h
<b>Charging time:</b>	8 hours
<b>Wireless Connectivity:</b>	Bluetooth 2.1
<b>Bluetooth Profiles:</b>	Bluetooth headset profile 1.2 Bluetooth hands-free profile 1.5 Bluetooth A2DP profile 1.2 AVRCP 1.0
<b>Bluetooth Range:</b>	Up to 10m, class 2
<b>Wired Connectivity:</b>	3,5mm AUX input jack (limited to 82 dB) Nexus two pin (J22) AUX input jack
<b>Net Weight:</b>	352g (incl. batteries)

3M™ Peltor™™ WS SportTac™™

**PELTOR™**

The Sound Solution

Sharpen  
your senses with  
the right protection

# Sharpen your senses with the right protection

Peltor™ WS SportTac™ allows you to better control what you hear – and don't hear. You can easily adjust the volume of surrounding sounds, filter out certain unwanted frequencies and still be protected from harmful noise levels when the shot is taken. The built in **Bluetooth™** solution makes it possible for wireless connection to a mobile phone or other communication device for instant and discreet communication.

## Optimized protection

Peltor™ WS SportTac™ is a level dependent hearing protector meaning it listens to the surrounding but attenuates loud harmful noise. The headset attenuates 26 decibels and has surround microphones that captures external sound with great accuracy. The sound is analysed at ultra-high speed before it reaches your ear. Weak sounds are amplified while noise, including sudden loud noises like a gun shot, is attenuated to a harmless level. The unique digital sound circuit reacts instantaneously, protecting your hearing but so softly, so that you rarely hear the clip as the protection is activated.

## Stay focused

Peltor™ WS SportTac™ has been designed for long time comfortable use. This is essential as any form of distraction may affect your performance no matter if you are on the shooting range

or during active Hunting. A softly padded leather headband provides a snug comfortable fit over the head. The low, two-point fasteners allow an even distribution of pressure over the whole cushion area, to help ensure the ear muff stays in place even during sudden head movements or when positioning the weapon. All to help ensure you'll have no problems staying focused.

## Enhanced hearing

The well positioned, sensitive microphones combined with large angled speakers have been carefully designed to provide a sound that is as natural as possible. Sounds are reproduced in full stereo, allowing you to detect exactly where they are coming from. But not only that. Weak sounds can be amplified up to four times compared to your normal hearing allowing you to better hear the game approaching or your dogs barking at a greater distance. A special

Exchangable shells. The colour differentiation improves safety and makes the wearer easily visible to other hunters.

With the three buttons on the right cup you can easily adjust volume and change settings of different modes. A "ghost voice" guides you through the menu and confirms your setting.

equalizer function makes it possible to cancel out certain frequencies to help better hear exactly what you want. You can also adjust the stereo balance to adapt if you for example have a hearing impairment in one ear.

## Instant communication

A clear and reliable communication between fellow hunters and Game keepers is an outstanding way to boost safety and ensure that for example the number of tags is not exceeded. Peltor™ WS SportTac™ can easily be connected to various types of communication radios via a wide range of specifically designed accessories. The built in **Bluetooth™** circuit now also allow for a complete wireless connection with your cell phone or other communication device with **Bluetooth™**. Phone can remain silenced in your pocket and only you will hear when you get a call. You can even stream audio in stereo from your phone or MP3 player over the **Bluetooth™** link and listen to your favorite music if it gets to boring at your post.

Bluetooth™ enables instant and discreet communication. With the well placed PTT/answer button on the left cup you can easily communicate over the communication radio or take/reject your calls from your cell phone.

Possibility for dual connections, wireless and wired.
