

EXPEDITION ESCAPE

Portable PA with *Bluetooth*®

PRODUCT INFORMATION

2014

Samson's Expedition Escape Portable PA with *Bluetooth* is an all-in-one speaker system that goes anywhere you want great sound. It's battery powered, weighs 10 pounds and even *Bluetooth*-enabled, so you can pair the Expedition Escape with your smartphone, laptop or tablet and stream your music wirelessly. It's perfect for home stereo setups, parties, outdoor events and more.

Delivering pristine, full-range sound, the Expedition Escape employs a 2-way speaker design with a 6-inch woofer and a 1-inch high frequency driver. The unit also features a 1/4-inch input for microphones and line level devices, 1/8-inch input for connecting MP3 players and other stereo devices, as well as an easy-to-use *Bluetooth* pair button. In addition, separate Volume controls allow you to tweak your sound to appropriately match your specific setting and audience.

The Expedition Escape is extremely lightweight and even offers a convenient integral top carry handle. These features, along with its internal rechargeable battery for over 12 hours of continuous use (battery level LED included) and a USB port for charging smartphones, make the Expedition Escape an ultra-portable wireless music solution for activities such as trips to the beach, camping, backyard BBQs, tailgates and anywhere else you want to playback your music.

High-quality components, versatile features and convenient portability make Samson's Expedition Escape the ideal PA system for any recreational application.
