

# Polycom® SoundStation2™ Product Line

## Feature and Benefits

### Remarkable Voice Quality. The New Standard in Everyday Conferencing.

With the SoundStation2, Polycom sets the new standard for everyday business conferencing. With truly remarkable voice quality, a large graphical display\*, smart technology, such as Dynamic Noise reduction, and traditional telephone features, SoundStation2 improves the performance and increases the productivity of everyday conferencing.

Feature	Benefit
Polycom Acoustic Clarity Technology	▪ Allows natural, interactive two-way conversations (full duplex). Users don't have to wait for speakers on the far end to stop talking before breaking into a conversation
Remarkable Voice Quality	▪ Users can speak in a normal voice up to ten feet away from the console ▪ More productive calls – no need to repeat yourself ▪ Three cardioid microphones provide 360-degree coverage so that everybody in the room can be heard clearly
Dynamic Noise Reduction (DNR)	▪ Automatically reduces room background noise – from fans, projectors, heating and air conditioning – for clearer sound and more efficient conferencing
Intelligent microphone mixing	▪ Automatically selects the microphone closest to the person speaking, eliminating extraneous background noises
Microphone expandability (EX version only)	▪ Optional extension microphones increase coverage for larger size rooms
Backlit graphical display*	▪ Convenient, easy access to important call information – phone number, number called, duration/progress of call and Caller ID ▪ Familiar, easy to use telephony features – phone book, conferencing, mute, and hold – eliminate user confusion and need for training
Auxiliary Input/Output Jacks	▪ Applications Port*: Provides connection to other communication devices, such as a mobile phone for making calls over the mobile phone networks, and to your computer for making calls over the Internet.* ▪ RCA jack: Allows connections to other peripherals, such as an audio recorder
Single-cord connection to phone console	▪ Eliminates cable clutter on the tabletop
Easy to use and install	▪ No training required, connects into any analog phone jack

\* Not available on all models.

\*\* SoundStation2 uses a cable that connects to a standard 2.5mm headset connector. If your mobile phone model does not support this type of connection you will need an adapter (not included).

Connecting the SoundStation2 to a mobile phone is analogous to connecting a headset to a mobile phone. Not all mobile phone models recognize the SoundStation2 as a headset. For a list of mobile phones that are known to work with the SoundStation2, please consult [www.polycom.com](http://www.polycom.com).
